INVENTORY OPTIMIZATION

The challenge isn't your data quality.

It's the ability to understand the stories in your data & unlock the outcomes that matter to your business.

This is where we come in.

OUR PARTNERSHIP

Together, **Verusen**, an AI-powered MRO optimization software and **V-LINE GROUP**, a team of global supply chain experts are **transforming MRO materials optimization** across **global manufacturing operations**.

By combining purpose-built, AI technology and industry expertise, the two are enabling procurement and operations teams around the world to streamline operations, cut costs, and boost efficiency for businesses worldwide.

OPTIMIZE YOUR MRO MATERIALS

Providing a best in class, AI-powered technology and expertise, Verusen is enabling global manufacturing organizations to transform their MRO (maintenance, repair & operations) or spare parts materials management strategies.

PURPOSE-BUILT TO DELIVER RESULTS

Average of **10-20%**
Reduction in Working Capital

Average of **2-3 X**
Return on Investment

Average of **\$20 M**
Cost Avoidance/Savings

WHY VERUSEN & V-LINE GROUP?

- ✓ **Harmonize MRO data** across plants, systems, & teams without time consuming, costly data cleanses
- ✓ Simultaneously **optimize existing inventory levels** while reducing risk
- ✓ Gain visibility to MRO materials across your networks via **fuzzy search** capabilities
- ✓ Capture the **team expertise & knowledge** for improved decision-making
- ✓ Proactively address **tail spend reduction** opportunities in your supplier negotiations & contracts
- ✓ Onboard quickly with **minimal IT resources** & unlock value within 60 days
- ✓ V-LINE is your **local representative** in Saudi Arabia, available at any time
